- Process Improvement
- Client/Vendor Relations
- Lean Methods/Six Sigma
- Business Statistics
- Database Management
- System Simulation

EMPLOYMENT

Community Health Systems · Antioch, TN   10/2017 - present
Senior MDM Analyst – Integration
Responsible to oversee the work of analysts in developing system integration crosswalks for transition to Infor Lawson. Apply techniques of technical skills, coaching, mentoring, and development to ensure continuous improvement in the team and processes.
- Act as servant leader in role of ScrumMaster for VBA macro coding and development team.
- Owner and developer of Standard Operating Procedure and Work Instructions
- Implemented process improvements and data analysis techniques to reduce product build time by 30-35% with near Six Sigma level quality
- Wrote several VBA macros to automate procedures, which reduced product build by more than a week

Community Health Systems (HCTec) · Nashville, TN   12/2016 – 10/2017
Master Data Analyst II
Contractor responsible to verify, correct, and upload data as part of the data integration team, in order to transition individual sites from legacy systems to Lawson.
- Utilized Excel, Access, and SQL Developer to analyze, verify, and clean master data for upload.
- Worked with local sites to verify data.
- Mentored and coached new analysts.
- Participated in select steering committee to supervise analyst progress and define procedures.

White Drive Products · Hopkinsville, KY   06/2010 - 01/2016
Purchasing Supervisor (07/2014 -01/2016)
Accountable for overseeing all facets of purchasing and procurement for $34M worth of items per year. Performed a variety of complex analytical duties, including data collection and mining, to determine effective purchasing and inventory strategies. Coached and developed personnel in new theories and skills.
- Increased turns by 40% while keeping overall inventory value at a five-year low by researching and implementing effective inventory strategies.
- Successfully led strategic sourcing projects in iron castings and C parts for $300K in savings, inventory stocking agreements, better payment terms, upgrades in packaging and storage.
- Implemented the practice of Kanban as the minimum inventory management requirement for strategic suppliers.
- Effectively trained team personnel in Lean and soft skills, such as Theory of Constraints, TPS, value stream mapping, emotional intelligence, Deming's 14 management principles, and Scrum.
- Implemented the inventory replenishment strategy of 'Time to Reliably Replenish' (TRR) to focus on a scientifically-based pull system of purchase orders rather than reliance on forecasting.

EMPLOYMENT - CONTINUED (PAGE 2)

Senior Purchasing Agent *(06/2010 - 07/2014)*
Served in a senior-level purchasing capacity, responsible for verifying purchase requisitions, preparing purchase orders, interacting with suppliers, verifying the receipt of items, and assisting with the purchasing/procurement planning process. Collected, analyzed, and summarized data and trends. Negotiated and executed strategic projects in domestic freight, steel bar supply, forging supply, and stamping supply.
- ◆ Drove cost savings of over $1M annually while improving all aspects of supplier relationships, including better payment terms, inventory management, supplier quality standards, etc.
- ◆ Increased supplier delivery time from 68% on-time to over 95% on-time by designing/implementing a supplier rating system and a tighter delivery focus from +/- five days to "one day early, zero days late."
- ◆ Designed and implemented strategic sourcing procedure. Additionally, designed a Kanban system of supplier inventory management which became a standard practice.

Transcraft, a division of Wabash National · Anna, IL   09/2007 - 06/2010
